

CASE STUDY: CITB

Roger Crichlow

BACKGROUND

I have tried quite a few jobs and I have worked a little in the building industry. I was very pleased to find out about SKILLS 2 CONSTRUCTION with Ixion Holdings. The moment I went on line to apply for the course started my journey to a wonderful experience. They have enabled me to train and obtain the qualification needed for employment. The course was most enjoyable and I learnt so much about the building regulations and requirements. I have been trained to pass the CSCS exam and I was even taught how to apply for that. My lunches were provided and I got all my PPE to make sure I have everything to get onto a building site.

I would recommend this for all who are passionate.

“My tutors were so helpful and really knowledgeable. They were kind and patient and taught us well.”

A DAY IN THE LIFE OF...

I am looking forward to passing my CSCS test in the very near future and I am also looking forward to being employed in the housing sector.

This is the best course I have been on. I was made to feel welcome and the tutors were brilliant. Very friendly and helpful and really knew there subjects.

WHAT THE FUTURE HOLDS

I am really looking forward to being a professional brick layer and building excellent homes for the future. The future is now looking prosperous and I am looking forward to being qualified and professional
