

Level 2 NVQ Certificate in Domestic Fascia, Soffit and Bargeboard Installation (QCF)

About the course

The IQ Level 2 NVQ Certificate in Domestic Fascia, Soffit and Bargeboard Installation (QCF) is a competence-based qualification for individuals working as installers or fitters on customer's premises, removing and installing fascias, soffits and bargeboards in glazing. It provides learners with formal recognition of their competence. All learners will cover the essential areas of communication, working with others, health and safety, installations, confirming requirements, handling materials and equipment and preparatory tasks. Through the optional units, learners can also cover dealing with asbestos cement, dismantling equipment, removing materials and handover to customers. The objectives of the qualification include meeting relevant programmes of learning, supporting a role in the workplace and preparing learners to progress to a qualification in the same subject area but at a higher level or requiring more specific knowledge, skills and understanding.

Structure of Course

To achieve the qualification a minimum of 30 credits must be achieved in total, 27 credits from the 8 mandatory units and a minimum 3 credits from the 4 optional units. Achievement of any additional optional units will be recognised and recorded on the certificate.

Assessment

All units in this qualification are assessed by portfolio. Evidence for this qualification must come from the learners consistent performance in the workplace and must meet the requirements of the Proskills Assessment Strategy. Further guidance for each unit can be found in the assessment guidance relevant to each unit.

All Assessment Criteria must be met in each relevant unit to achieve this qualification.

An Achievement Record for this qualification which includes the forms necessary to map and claim knowledge and competence is available to download from the IQ website.
