

## Level 3 NVQ Certificate in Fenestration Surveying (QCF)

### About the course

The Level 3 Advanced Apprenticeship in Fenestration Surveying (QCF) is a qualification for individuals working in fenestration surveying such as surveying work associated with glass supporting systems, including conservatories, other external glazed structures and advanced walling systems; surveying for doors and windows will also be undertaken. The course is made of qualifications built together creating a framework that includes Functional Skills in English and Maths, a Certificate in Fenestration Surveying (Competency Based) and a Certificate in Glass Related Operations (Knowledge based). All learners will cover health and safety, building regulations and communication as well as identifying requirements and producing specifications. The objectives of this qualification include meeting relevant programmes of learning and supporting a role in the workplace.

### Structure of Course

To achieve this qualification the learner must achieve all mandatory and optional units agreed via competence based observation and knowledge based assessments including passing the relevant Functional Skills grade in both English and Maths.

### Assessment

All units in this qualification are assessed by portfolio. Evidence for this qualification must come from the learner's consistent performance in the workplace and must meet the requirements of the Proskills QCF Assessment. Further guidance for each unit is available upon request. All Assessment Criteria must be met in each relevant unit to achieve this qualification.

### Course Modules

1. Maintain Health & Safety in the Surveying Environment
2. Communicating and Working With Others
3. Produce Specifications for Window, Door, Curtain Wall or Conservatory Installations
4. Identify Fenestration Installation Requirements
