

Level 3 Advanced Apprenticeship in Occupational Work Supervision (Construction) (QCF)

About the course

The Level 3 Advanced Apprenticeship in Occupational Work Supervision allows learners to demonstrate competence at a level required by the Construction and Built Environment Industry.

Structure of Course

To achieve this qualification the learner must achieve all mandatory and optional units agreed via competence based observation and knowledge based assessments including passing the relevant Functional Skills grade in both English and Maths.

Assessment

All units in this qualification are assessed by portfolio. Evidence for this qualification must come from the learner's consistent performance in the workplace and must meet the requirements of the Proskills QCF Assessment. Further guidance for each unit is available upon request. All Assessment Criteria must be met in each relevant unit to achieve this qualification.
