

Level 2 Certificate in Understanding End of Life Care

About the course

This qualification aims to develop the learner's knowledge and understanding of: how to work in end of life care, the support needed to manage pain and discomfort, how dementia impacts on end of life care, the role of the care worker in time of death, the loss and grief process.

The objectives of this qualification are to:

- Give learners working or intending to work in healthcare and social care knowledge and understanding of end of life care to support their role
- Enable learners to progress to other qualifications in this subject area, or within the wider area of health and social care.

Structure of Course

The level 2 Certificate in Understanding End of Life Care is 13 credits and 110 guided learning hour (GLH) qualifications that consists of 5 mandatory units.
