

## Level 2 NVQ in Forklift Truck Operations (QCF) (Logistics)

### About the course

The Edexcel Level 2 Award and Level 2 Certificate in Forklift Truck Operations will be particularly useful for learners who have recently started job roles in warehousing and storage with responsibilities for operating forklift trucks. The qualifications require learners to prepare and operate a forklift truck but also include wider competences such as contributing to customer service, health and safety and handling goods.

### Structure of Course

Every unit in the QCF has a credit value. The credit value of a unit specifies the number of credits that will be awarded to a learner who has met the learning outcomes of the unit. The credit value of a unit is based on:

- One credit for those learning outcomes achievable in 10 hours of learning
- Learning time – defined as the time taken by learners at the level of the unit, on
- Average, to complete the learning outcomes of the unit to the standard
- Determined by the assessment criteria.

### Assessment

These qualifications are assessed through an externally verified Portfolio of Evidence that consists of evidence gathered during the course of the learner's work. To achieve a pass for the full qualification, the learner must achieve all the required units in the stated qualification structure. Each unit has specified learning outcomes and assessment criteria. To pass each unit the learner must:

- Achieve all the specified learning outcomes
- Satisfy all the assessment criteria by providing sufficient and valid evidence for each criterion
- Prove that the evidence is their own.
